The staff at the American Association for the Advancement of Science (AAAS) contributed enormously to the *Math Power* project. The work, dedication, and skill of Gloria Gilbert is especially noted. The *Math Power* books are a reality only through her untiring efforts in organizing, processing, and preparing the activities for publication. Other AAAS staff whose efforts are appreciated include Barbara Walthall for final production and design, Liz Carroll and Joan Levy for cover design, and Danita Wilkinson for project secretarial support. Finally, the support and encouragement of Shirley Malcom has been an inspiration to bring *Math Power* to all students, families, and communities.

*Math Power*, developed as a project of the AAAS Directorate for Education and Human Resources Programs, was funded by a grant from the Ford Foundation.

The material in the books does not necessarily reflect the views of the American Association for the Advancement of Science or the Ford Foundation.
